PROFESSIONAL SUMMARY

I'm a reliable and detail-oriented Virtual Assistant with experience in **YouTube and content support, administrative tasks, AI-powered content creation, lead generation, research, and workflow organization.**

I have created **5,000+ video tutorials** covering different apps, software, websites, and online platforms. This experience has strengthened my ability to learn new tools quickly, follow detailed instructions, document processes clearly, and produce consistent content at scale.

I'm comfortable working independently, organizing digital files and tasks, publishing and scheduling content, researching information, and supporting day-to-day business operations. I'm adaptable, organized, and focused on delivering accurate work with minimal supervision.

CORE SKILLS

YouTube & Content Support

- YouTube Studio – video uploads, scheduling, titles, descriptions, tags, and thumbnails
- vidIQ – YouTube research and content optimization
- Video tutorial creation and software walkthroughs
- Content organization and publishing
- Content scheduling and workflow management
- Thumbnail creation using Canva
- Short-form video editing using CapCut and Descript
- Content repurposing and social media formatting

5,000+ Video Tutorials & Software Training

- Created **5,000+ step-by-step video tutorials** covering a wide range of apps, software, websites, and online platforms
- Recorded and explained software workflows and processes
